

Report from:

Questionnaire about - 2017 AgM_{net}⁺ INTERNATIONAL SUMMER SCHOOL IN AGROMETEOROLOGY AND CROP MODELLING

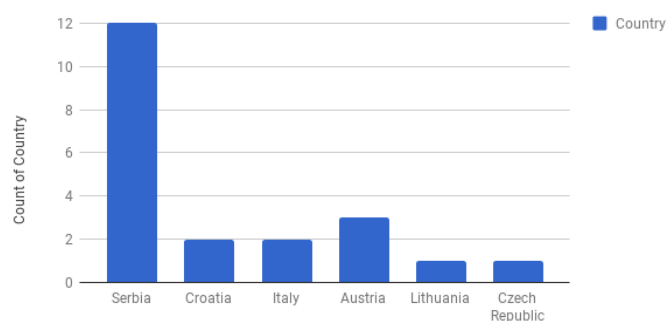

The participants were asked to answer a few questions about their experience at the Summer School in order to quantify our effort and evaluate the work of AgM_{net}⁺ members. Answers from 21 participants are received.

Participants:

Count of Service or Institution:

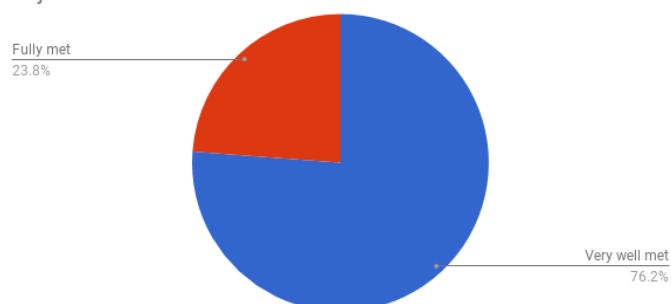

Country:

Lectures:

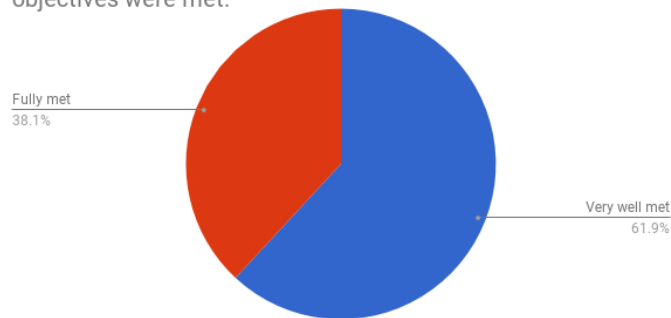

Do you feel that the programme of the lectures met the expressed objectives? Please assess the extent to which the objectives were met:

there was no answers for not met, or nearly met

Exercises:

Do you feel that the programme of the exercises met the expressed objectives? Please assess the extent to which the objectives were met:

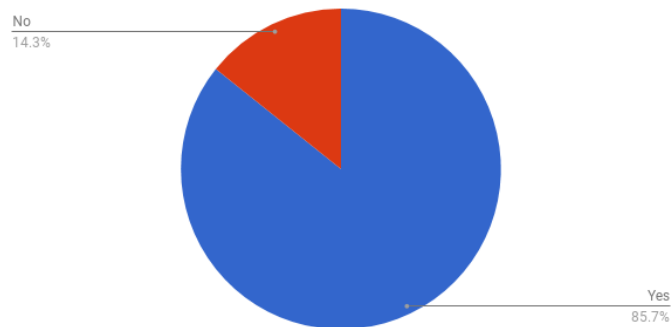

there was no answers for not met, or nearly met

Current and future work:

Did you receive advice on how to apply the knowledge gained during the course/seminar to relevant situations after (such as the facilities needed for this purpose, e.g. instrumentation)?

All answers were YES.

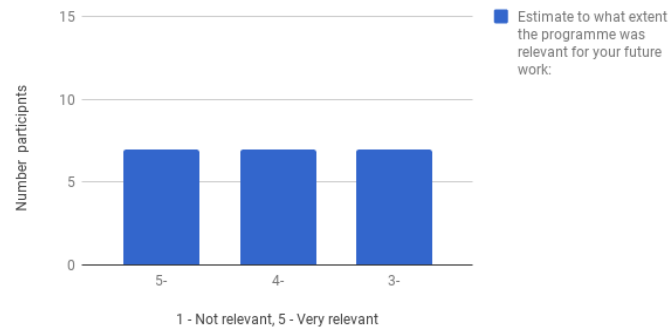

Do you feel that the knowledge you have acquired has prepared you for individual work?

Those who answered NO added:

- 1-** *I think that we need more time, although we learned a lot on this course.*
- 2-** *Preparation of computer program was too difficult for me, and not enough time for exercises and for explanation it. I'm not ready to work individual with this model, because need more time for it, but I got basic knowledge, and now I can understand more this model and it will be more ease to learn it individual.*
- 3-** *I think that just one week is not enough in order to acquire individual capacity to work.*

Estimate to what extent the programme was relevant for your future work:

Did you have any language difficulties?

All answers were NO.

Educational background and experience:

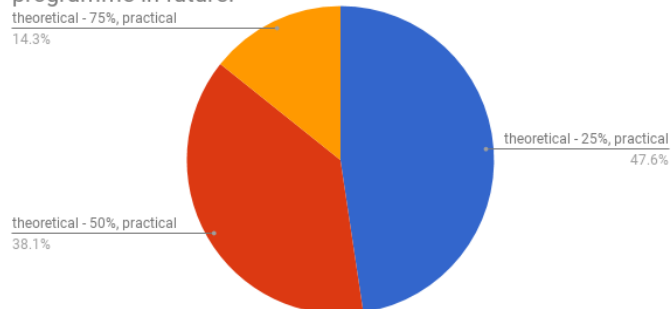

Indicate the level at which the training activity was conducted:

All answers were SUITABLE.

Please, rate the ratio between theoretical and practical parts of the programme.

All answers were A SUITABLE BALANCE.

Count of Please, suggest the approximate time-ratio between the theoretical and practical components of the similar programme in future.

Have you found Summer School material adequate (web page, book of abstracts, other)

All answers were YES.

Round table:

Was the round table about Science and Education satisfying for you?

How would you rate the overall event?

We received 19 fives (5- Excellent) and 2 fours (4- Very well).
